

Have You Ever Wondered...?

Principal Aim

The principal aim of religious education is to explore what people believe and what difference this makes to how they live, so that pupils can gain the knowledge, understanding and skills needed to handle questions raised by religion and belief, reflecting on their own ideas and ways of living.

Religious Education is usually taught weekly in each class. Sometimes year groups come together to share their lessons and sometimes we may hold themed days or weeks across school. Lessons are planned following the statutory requirements of the Worcestershire Agreed Syllabus for Religious Education.

This term children across school will be using the Understanding Christianity resource to learn about Incarnation and the birth of Jesus.

Children in EYFS are busy learning about the Christian Nativity story in their RE lessons so that they can carry out their traditional Nativity production for parents (albeit slightly differently this year).

Religious Education

The purpose of Religious Education.

Religious education contributes dynamically to children and young people's education in schools by provoking challenging questions about meaning and purpose in life, beliefs about God, ultimate reality, issues of right and wrong and what it means to be human.

In RE pupils learn about religions and beliefs in local, national and global contexts, to discover, explore and consider different answers to these questions.

Pupils learn to weigh up the value of wisdom from different sources, to develop and express their insights in response and to agree or disagree respectfully.

RE should develop in pupils an aptitude for dialogue so that they can participate positively in our society, with its diverse religions and beliefs.

Note that the term 'religion' encompasses both religious and non-religious beliefs.
